Roydent Dental Products prides itself on long standing relationships with dealer partners, universities & students, end user clinicians and staff which also creates loyalty. Customer loyalty has catapulted Roydent into one of the top three hand file companies in the USA. We strive to deliver products and customer service that you know and trust. We are excited to share our Loyalty Purchasing Program with you, please call us for details.

FILE	TIP	DESIGN
C-FILES	Non-Cutting tip	Designed for initial access and breaking through calcification.
FLEXICUT FILES	Non-Cutting tip	Triangular blade for increased flexibility. Designed for full instrumentation.
K-FILES	Cutting tip	Designed for full instrumentation.
NITI FILES	Non-Cutting tip	Conforms to the curvature of the canal during instrumentation.

Also available: Hedstroms, Reamers, Mid-Sized K-Files.

Aha!™

Make a Great First Impression—
Every Time.

Introducing the Aha! Family of Impression Materials

We understand how frustrating it can be to THINK you have the perfect impression only to have molds chip, break, or tear in processing. With Roydent's new Aha! family of impression materials, you can feel confident knowing you will get a solid, durable impression that will hold up and stay true. You get a great mold AND a happy patient, the FIRST time.

Now that truly IS a great impression!
